Guidance

**1 in 5** people have mental health disorders that interfere with the way they think, feel, and act. When untreated, mental health disorders can lead to school and work failure, family conflicts, drug abuse, violence, and even suicide.

The idea behind **Walk a Mile in My Shoes** is to encourage people to help to break down the stigmas associated with mental health—to take a look and walk in someone else’s shoes. With your help, one day, mental health will have the same recognition and support as other medical conditions.

**Help Ozark Guidance save and change lives by becoming a Walk a Mile in My Shoes sponsor.**
